

Product application and technical data sheet

Kooka Power

Kooka Power is an optimized blend of alcohol ethoxylate and cationic surfactants, intended to be used for water based degreasing.

Due to the efficient cleaning effect on organic soils, such as grease and oil, can often replace a solvent. The cleaning effect will often be much better than with conventional products, particularly when an oily soil contains a lot of soot and pigments.

Kooka Power can be viewed as a great improvement compared with conventional alkaline cleaners. Kooka Power also has a degreasing effect in acid conditions. Kooka Power can be used in most application equipment including high pressure. Kooka Power can be the cost effective way to achieve cleaner surfaces.

Application

- Vehicle cleaning
- Engine cleaning
- Engineering cleaning
- All-purpose cleaning
- Acid cleaning

Typical Physical Properties

Appearance at 25C : Green viscose liquid
Melting Point (C) : -10
Clear Point (C) : 7
Pour Point (C) : -10
Flash Point (C) : >100
Specific Gravity (C) : 1.01(20)
Viscosity (cp)(C) : 500-2000 cps
Initial Boiling Point (C) : 100(760)

Packaging : 30,200kgs/drum

Shelf life : min 2 years

Handling and Storage:

Kooka Power should be stored in cool, dry place away from heat and flammable or combustible materials. No special precaution required, but normal industrial goods housekeeping practices. Should be followed, as for any chemical additives. In the case of skin contact, wash thoroughly. For eyes, flush with plenty of water for 15 minutes. This product has good storage stability, but avoid extremes of temperature . In the case of fire please see the SDS.
